

**APOLLO INSTITUTE OF HOSPITAL ADMINISTRATION
MASTER'S DEGREE IN HOSPITAL MANAGEMENT
INFORMATION BROCHURE**

1. About the Institute: Established in 1994, the Apollo Institute of Hospital Administration (AIHA) stands as a premier institution dedicated to shaping the future of healthcare management. With over three decades of academic and research excellence, AIHA is sponsored by the Apollo Hospitals Educational & Research Foundation, approved by the AICTE, and affiliated with the prestigious Osmania University.

AIHA has trained and placed thousands of graduates into leadership roles worldwide. Our alumni drive innovation and excellence in progressively responsible positions across top-tier hospitals and global healthcare organizations.

What truly sets AIHA apart is its strategic location within the Apollo Health City in Hyderabad. This direct attachment provides students with unparalleled access to world-class resources, clinical environments, and real-time operational insights, creating a learning experience that is truly in a class of its own.

Chaired by Padma Vibhushan Dr. Prathap C. Reddy, our Governing Body empowers AIHA to translate academic theory into real-world healthcare leadership.

2. About the course: As healthcare becomes more technology-driven and complex, the need for professional management has never been greater. Because healthcare organizations face unique challenges, managing them requires a specific blend of medical knowledge and business expertise.

Our Master's in Hospital Management (MHM) is designed to bridge this gap. The program combines core business administration with specialized healthcare topics, including:

- Healthcare Technology
- Patient Care & Medical Administration
- Medical Law and Ethics

To ensure students are industry-ready, the course also offers hands-on training through internships and projects, providing valuable practical exposure to real-world healthcare environments.

By the end of the course, graduates are equipped with the skills and confidence to take on leadership roles and make critical decisions in the evolving healthcare business landscape.

3. Eligibility: The aspirants of Master's Degree in Hospital Management should possess a Bachelor's Degree in any discipline (Except Fine Arts and Oriental Languages) from a recognized university with a minimum of 50% marks (for reservation category candidates 45%).

The selection is based on the marks secured in entrance test conducted by the Osmania University.

Qualifying in the entrance test is mandatory for admission. The test comprises of Reasoning, Numerical Ability, English Comprehension and Usage, Health and Hospital knowledge, and Current Affairs.

4. Intake: Convener Quota – 42 seats + 4 seats (EWS), Management quota – 18 seats.

5. Admission: 85% of the seats are reserved for local candidates. The remaining 15% seats are open to local and non-local candidates {in accordance with the Andhra Pradesh Educational Institutions (Regulation of Admission) Order 1974}. Rules of reservation apply as per the Telangana state norms.

6. Medium: The medium of instruction for the study and examinations shall be English only.

7. Attendance: This is a full time course. Admitted candidates are required to put in not less than 75% of attendance.

8. College Code: Osmania University code of the college is 1404.

9. Course Delivery: Our curriculum is delivered through a comprehensive blend of academic and experiential learning methods. Theoretical foundations are established via classroom lectures, seminars, and audio-visual presentations, while practical insights are gained through case studies, group discussions, and guest lectures from industry experts. To ensure students are career-ready, the curriculum emphasizes real-world application through field visits, hands-on projects, internships, and in-depth dissertations.

10. Course Duration: It is two years (four semesters), full time, on-campus Masters Programme.

11. Course Structure:

Semester I: 7 papers + Hospitals visits

Semester II: 7 papers + Project work for 6 weeks

Semester III: 7 papers + Commencement of dissertation work.

Semester IV: 3 papers + Dissertation & Viva Voce + 4 months internship

12. The Faculty:

At AIHA, we believe that effective healthcare leadership requires both academic rigor and real-world insight. Our teaching team is a strategic blend of dedicated academicians and seasoned professionals.

Our core faculty brings a diverse wealth of knowledge from fields such as Commerce, Technology, and Healthcare Management. Beyond theoretical teaching, they integrate practical experiences and insights gained from strategic research and live projects directly into the classroom.

We pride ourselves on a strong network of visiting experts and adjunct faculty who hold top management positions across the healthcare spectrum. Students learn directly from specialists with hands-on experience in:

- Hospital Operations & Quality
- Healthcare IT & Digital Transformation
- Health Insurance & Finance
- Public Health & Policy Making

By connecting academic foundations with current market trends, we provide a curriculum that is always relevant, ensuring our graduates are ready to lead in the fast-evolving healthcare industry.

13. Course fees: The fee for convener quota seats is as follows:

First Year: Tuition fees Rs.60,000 + Counseling fees, payable at, Osmania University. An amount of Rs.20,000/- is payable to the college towards Special Fees, Students Common Services Fees, Insurance, etc.

Second Year: Rs.60,000 Tuition fees + Rs.3,000 Special fees payable in the college before the commencement of 3rd Semester.

Further, at the end of every semester, examination fee as notified by OU has to be paid.

14. Career Opportunities:

What Students Learn: Basics of Business Administration and Accounting plus how Healthcare Organisations work behind the scenes, including managing patient care, staff, and other daily business activities. The MHM degree prepares students for leadership roles in any business related to healthcare. Graduates can work in many different parts of the healthcare industry:

- **Hospitals:** Managing operations, improving service quality, marketing, or handling medical supplies.
- **Insurance:** Processing and monitoring claims, helping customers or managing revenue cycles.
- **Health Tech:** Working as a business analyst for healthcare software companies or US-based health markets.
- **Other Allied Areas:** Leading teams in diagnostic labs, homecare services, medical tourism agencies, or government health programs.
